

Congress of the United States
House of Representatives

October 19, 2026

Mr. Robert Spurlock
President & Executive Director
TransAmerica Corridor, Inc.
13 S Spanish St.
Cape Girardeau, MO 63703

Dear Mr. Spurlock:

Please accept this letter of support concerning the continued development of the East-West TransAmerica Corridor (High-Priority Corridor 3) and the efforts of TransAmerica Corridor, Inc. to advance this important transportation connection through West Virginia and across the United States. Additionally, I also support clarifying the statutory route description of the East-West TransAmerica Corridor to recognize it's I-66 and I-50 components through West Virginia.

This congressionally designated route extends through southern West Virginia, including the Williamson, Welch, and Beckley areas, where the King Coal Highway and Coalfields Expressway provide important components of the corridor's future development. Continued investment in these transportation corridors has the potential to strengthen connectivity for communities throughout southern West Virginia, improve access to markets, support economic development, and provide more efficient transportation connections between West Virginia and neighboring states.

The work of TransAmerica Corridor, Inc. and its partners have been beneficial to advancing the East-West TransAmerica Corridor. I support continued planning, coordination, and development of the corridor and encourage appropriate federal, state, and local agencies to work together as opportunities arise to advance this important transportation infrastructure.

I look forward to further progress in transportation investments that strengthen West Virginia's communities and connect our state with economic opportunities throughout the region and the nation.

Sincerely,

Carol D. Miller
Member of Congress
